EXAMINER'S AMENDMENT

1. Claim 1 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 5, 7, 8, 12, 13 and 15, directed to the non-elected species are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 2, lines 1-2: replace "means for reversibly connecting" with - -reversible fastener- -

Claim 4, lines 1-2: replace "means for reversibly connecting" with - -reversible fastener--

Claim 5, line 2: replace "means for reversibly connecting" with - -reversible fastener- -

Claim 7, line 4: replace "means for reversibly connecting" with - -reversible fastener- -

Claim 14, lines 1-2: replace "means for reversibly connecting" with - -reversible fastener- -

Claim 15, lines 1-2: replace "means for reversibly connecting" with - -reversible fastener- -

Claim 16, lines 9-10 and 11: replace "means for reversibly connecting" with - -reversible fastener- -

Claim 9, delete lines 5 and 6

Claim 9, line 7: replace "d" with - -c- -

Art Unit: 3644

Claim 9, line 15: insert - -and- - following the comma

Claim 9, insert after line 15: - -d. said means for reversibly connecting being slidably engaged to the secondary section;

3. The following is an examiner's statement of reasons for allowance: The closest related prior art is considered to be Deioma, US 5,647,303. The instant invention claims a reversible fastener that is independent of internal rotation about a longitudinal axis, i.e. the fastener is not permitted to swivel or rotate as per the applicant's disclosure. Deioma is directed to a reversible fastener in which the swiveling action of the fastener is considered very important (column 5, line 20) and as such, replacing the swiveling fastener of Deioma with a fastener absent internal rotation as claimed by the Applicant would destroy the reference of Deioma and therefore can not be considered to be an obvious modification to one having ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kimberly S. Smith whose telephone number is 571-272-6909. The examiner can normally be reached on Monday thru Friday 10:00-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Teri Luu can be reached on 571-272-7045. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
